

Thunderhead® Magnum Installation Instructions

The high-performance broadhead especially designed for the crossbow hunter!

- 170 grains deliver proper balance and optimum penetration with crossbow bolts
- All-steel construction with 3 replaceable shaving-sharp blades
- Field-point accurate
- Micro-grooved Slimline® Pro ferrule
- Trophy Tip® Point

- 1. Remove broadhead from tray and insert into wrench (supplied).
- **2.** Carefully unscrew retaining insert.
- 3. Screw arrow shaft onto broadhead until tight.

CAUTION - This product may be extremely dangerous and will cause injury if handled improperly. To avoid injury use the enclosed safety wrench when attaching and removing broadhead.

Store heads in quiver after assembly.
